

Tasking Memorandum No. 80-77

Memorandum For DCMC Customer Liaison Representatives (CLRs)

Subject: DCMC Aircraft Overhaul, Modification, Maintenance and Repair (OMMR) Workload Projections (TASKING)

Date:

Suspense Date: January 21, 2000

Target Audience: DCMC CLRs working with buying activities involved in Aircraft OMMR

New Information:

- The DCMC Aircraft Overhaul, Maintenance, Modification and Repair (OMMR) Center was established by the DCMC Executive Council on October 28, 1999 to address DCMC's increasing involvement in aircraft OMMR activities and promote consistency in the administration of those contracts throughout the Command.
- Major General Malishenko has tasked the Center to provide him with workload projections in the Aircraft OMMR arena to enhance the support DCMC can provide its customers in the future.

Requirement(s):

- Per DCMC-P letter dated November 22, 1999, copy attached for your review, Customer Liaison Representatives should survey their buying activity program offices to provide the information requested in the attached matrix.
- Aircraft OMMR component repair effort must include installation of the component onto the actual airframe. For example, aircraft OMMR work effort may not include the individual repair of an aircraft radio or landing gear, but would include the installation of those components onto the aircraft.
- Forecasts for future work should include the year the work is expected to start.
- Responses should be sent to both points of contacts listed below.

Points of Contact for Further Information:

Cheryl Maddux/Aircraft Overhaul, Modification, Maintenance and Repair (OMMR) Center (DCMDE-AAD)
(770) 590-2613, DSN 697-2613
cmaddux@dcmde.dla.mil

Kermit Shaw/Aircraft Overhaul, Modification, Maintenance and Repair (OMMR) Center (DCMDE-AAD)
(770) 590-2606, DSN 697-2606
kshaw@dcmde.dla.mil
